

Spatial Arrangement in Video Conferencing

Team Limetten

Insights

- Simple UI
- Arrangement of participants is up to the user
- Screen Sharing & Filesharing
- Permission/Role System

Personas

Silvano Da Silva

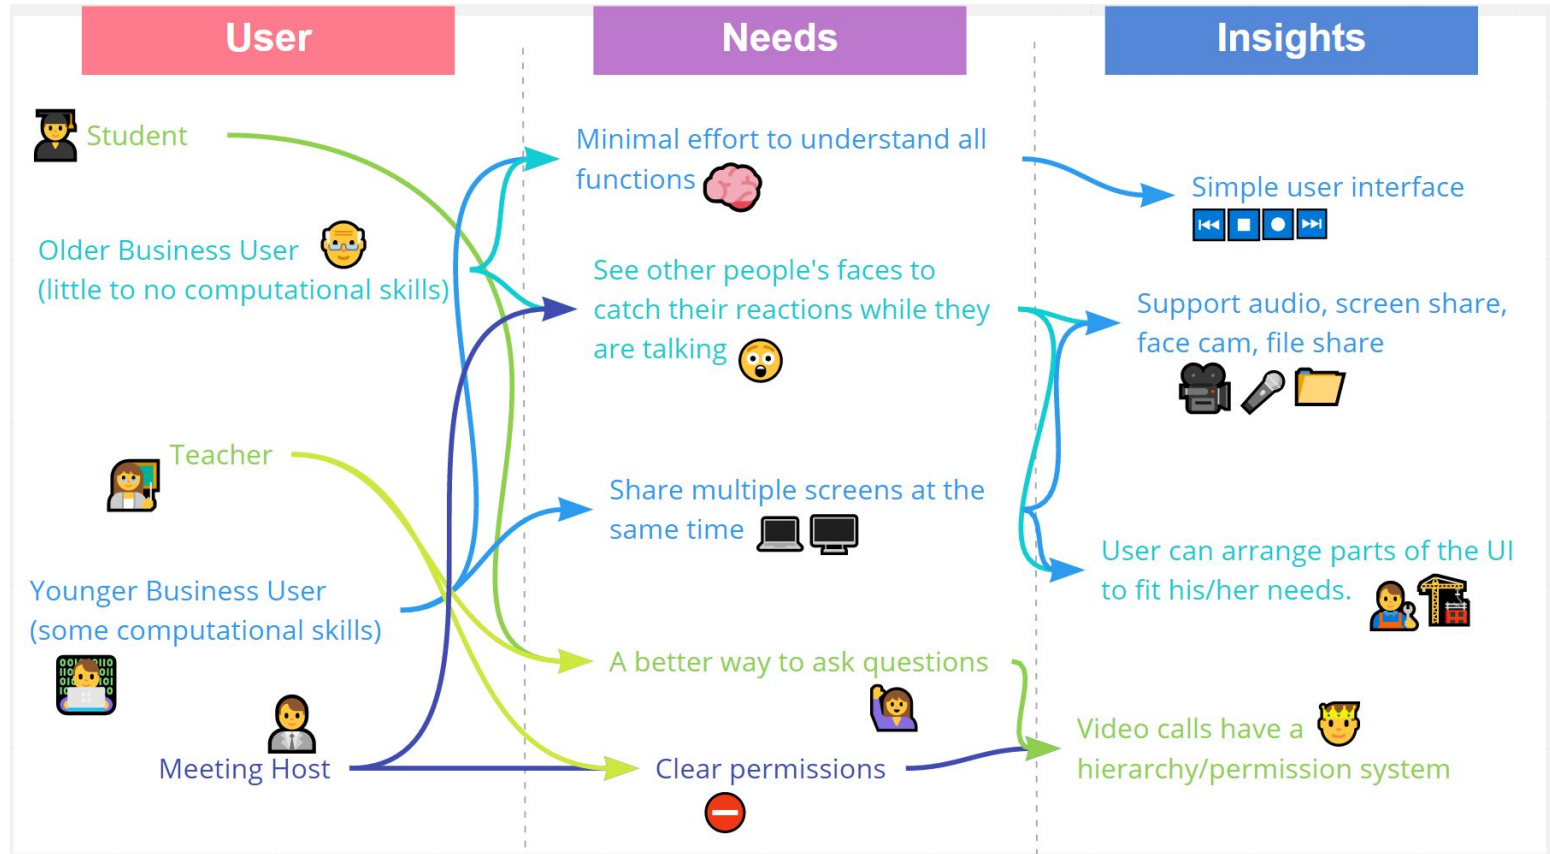

Raphael Yamamoto

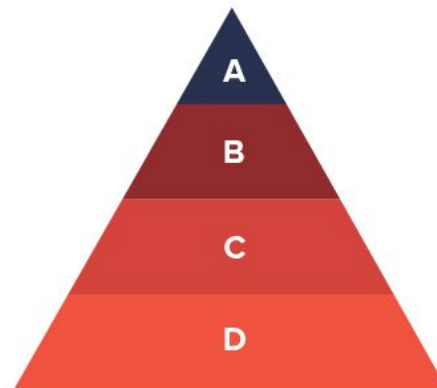

Karen Smith

Affinity Diagram

Level-based Permissions

- give different participants in the call different levels
- different levels, give different permissions
 - mute/unmute people with lower levels
 - rearrange the visual order
 - share files, share screen
 - access to different breakout rooms
- lower level participants go through higher level participants to ask questions / get permissions

User-specific Conference Arrangement

Agar.io Styled Arrangement
